Well, we will find out for sure on Thursday. I have three main goals for the meeting on Thursday: 1) ensure we have an apples to apples comparison for costs; 2) make the City aware of their role/responsibilities in any potential excavation remedy; and 3) determine if EQ could conduct the work knowing how EPA funds projects (i.e. what if it takes 10 years or more to fund such an excavation remedy).

Jim

Not sure you saw this, note about ½ way down Bruce states their proposal would clean up the residential and commercial properties and backfill to allow for development. That is not what the EQ proposal we have says.
